

Ashton

Ashton is 11 years old. Here's what he wants you to know about him.

My favorite things:

Favorite sport: basketball. Favorite team: the Sacramento Kings.

Activities I enjoy:

Playing baseball, basketball, and lacrosse.

What we want families to know about Ashton:

Ashton is quite bright and does well in school. He is a talented athlete and shines when participating in sports. He has siblings and a former respite family he'd like to stay in touch with. He needs to continue going to therapy, which is helping him learn how to control his emotions and not get frustrated so easily.

What we are looking for in a family:

- An active family that is willing to support his athletic pursuits (i.e., be in the stands cheering him on);
 - Is willing to work with his current team while he transitions to their home;
 - Will support his ongoing therapy; and
 - Will patiently stand by him as he learns to trust that they will stick with him and keep him safe. *This may take some time and will require lots of patience.*
-
